

IN THE DRAWINGS:

Enclosed are new formal drawings of Figs. 1 and 2, accompanied by a LETTER TO THE OFFICIAL DRAFTSPERSON. In Figure 1, the label --Prior Art-- was added. Figure 2, a box and label for the user interface (UI) was added.

REMARKS

Claim Rejections

Claims 1-29 are rejected under 35 U.S.C. § 112, second paragraph.

Title of the Invention

Applicant is submitting a new title for that originally filed with this application to more clearly describe the claimed invention. Entry of the new title is respectfully requested.

Substitute Specification

It was felt that the most expeditious way of correcting the numerous grammatical and idiomatic inaccuracies present in the specification as filed was the preparation of a Substitute Specification. The Substitute Specification is attached hereto and is accompanied by a marked-up copy of the original specification which indicates the changes made thereto by the Substitute Specification. No "new matter" has been added to the original disclosure by the Substitute Specification. Entry of the Substitute Specification is respectfully requested.

Drawings

Applicant has amended Figures 1 and 2, as illustrated on the attached formal drawing, accompanied by a LETTER TO THE OFFICIAL DRAFTSPERSON. Figure 1 was amended to add the label --Prior Art--. Figure 2 was amended to add a box and label for the user interface (UI). No "new matter" has been added to the original disclosure by the amendments to these figures. It is believed the foregoing proposed amendments obviate the outstanding objections to the drawings. Entry of the corrected drawings is respectfully requested.

New Claims

By this Amendment, Applicant has canceled claims 1-29 and has added new claims 30-55 to this application. It is believed that the new claims specifically set forth each element of Applicant's invention in full compliance with 35 U.S.C. § 112.

In the absence of any art cited against Applicant's original claims 1-29, it is not believed that any detailed discussion of the cited prior art references is necessary. Suffice to say that all of the claims remaining in this patent application contain subject matter against which no prior art citations have been made.

Summary

In view of the foregoing amendments and remarks, Applicant submits that this application is now in condition for allowance and such action is respectfully requested. Should any points remain in issue, which the Examiner feels could best be resolved by either a personal or a telephone interview, it is urged that Applicant's local attorney be contacted at the exchange listed below.

Respectfully submitted,

Date: January 23, 2006
